2023 Events

Our main activity this year was a plenary event at the BSA conference in Manchester. This was a plenary discussion with Huw Davies, [Rebecca Eynon](#), Karen Gregory and Janja Komljenovic (chaired by Mark Carrigan) exploring the significance of digital sociology for analysing and intervening in the contemporary landscape of educational technology.

Plans for 2023

Themes emerged during the plenary which prompted discussion of future plans for the group. We are currently exploring the possibility of a research retreat for digital sociologists and a rotating seminar between Manchester and Edinburgh. We also plan to refresh our public facing blurbs and develop a new engagement strategy taking account of the issues surrounding Twitter.

Budget

As of 31st December 2022, the account balance for the Digital Sociology study group was £467.28.
